1. Styling – Mentor Registration Page Background

In the **Mentor Registration at account** part, set the background color of the `<main>` element to **`#f5f5f5`**.

- Remove the current patterned background.
- Use a clean solid background color instead.

This will give the page a simpler and more consistent visual appearance.

2. Styling – Mentor Registration Section Headings

In **Mentor Registration → Account**, set the following text to **`#FFFFFF`**:

- **Create Your Account**
- **Basic account details. Fields marked * are required.**

Apply the same white text styling to the headings and supporting text in the **Biography** and **Review** sections as well in the upper part of their forms.

This keeps the section headers readable against the darker background and consistent across the multi-step form.

3. Styling – Mentor Registration Inputs and Required Markers

In the **Mentor Registration** form, from the **Account** section through the **Review** section:

- Set the **form input box color** to **`#b3b3b3`**.
- Set all **required field asterisks (`*`)** to **red**.

This creates a consistent input style across the full registration flow and makes required fields more visible.

4. Sidebar Progress Indicator – Mentor Registration

In the **Mentor Registration** sidebar, show the actual step numbers for the sections, including **Entrepreneurship**, **Mentoring**, and **Preferences**, instead of generic placeholders.

- Each section should display its corresponding number in the sidebar.
- As each form section is fully completed, replace the number with a **checkmark/status icon** indicating it is complete.
- Apply this completed-state behavior across the full registration flow, including **Account**, **Profile**, **Biography**, **Review**, and any other steps in the sequence.

This follows standard stepper patterns where completed steps switch from numeric indicators to a success/check state.

5. Styling – Profile Strength Badge

In the **Mentor Registration** flow, update the **Profile Strength** indicator as follows:

- Set the **background color** of the badge to **`#4C808A`**.
- Set the **"Profile Strength"** text to **`#FFFFFF`**.
- Set the **"Complete all sections"** text to **`#FFFFFF`**.

This keeps the badge consistent with the platform's main accent color and improves readability.

6. Content Removal – Docs and Links

In the **Docs and Links** area of the registration form:

- **Comment out** the following sections under **Document Uploads**:
  - Professional Certificates
  - Business Registration Certificate
  - Professional Membership Certificates
- **Comment out** the **GitHub (if technical)** section under **Social and Professional Profiles**.

These sections should be hidden from the rendered form while remaining in the code for

7. Submission Confirmation Page Styling Inside Mentor Registration

Update the **Mentor Registration** submission flow as follows:

- Set the **Submit Mentor Registration** button background color to **`#4C808A`**.
- After submission, show a confirmation page with the following content styled as specified:

Badge styling

For **"Your Profile Strength"**, **"Profile Strength"**, and **"0%"**:

- **Background color:** `#FFFFFF`
- **Text color:** `#3B4167`

Page text styling

Set the following text to **`#FFFFFF`**:

- **Application Submitted!**
- **Thank you, [name]. Your mentor registration has been received.**
- **Our team will review your profile within 5–7 business days. You will receive a confirmation email at [email].**

8. Button styling

For the **"Back to Mentor Portal"** button:

- **Background color:** `#3B4167`
- **Text color:** `#FFFFFF`

This creates a clear confirmation state while keeping the color palette consistent across the registration flow.

Mentor Login Page Update

On the **Mentor Login** page, remove the entire right-side content block, including:

- The quote: **"A great mentor doesn't just share knowledge — they ignite the spark that transforms a founder into a leader."**
- The attribution: **"— Emerge Livelihoods"**
- All stats displayed in that right-side area

Keep the main login messaging, including:

- **"Sign in to manage your startups, schedule sessions, and track entrepreneurial impact."**

Additional text updates:

- Set **"Email Address or Username"** to **`#FFFFFF`**.
- Remove the **comma** after **"schedule sessions"** so the sentence reads naturally without it.

9. Navigation Updates

In the **Mentor Registration** page sidebar:

- Add a **"Back to Mentor Landing Page"** button.
- Link this button to the **Mentor Landing Page**.

Also, update all **Emerge Livelihoods** logos across the platform so they link to the **root homepage**.

This improves navigation consistency and gives users a clear path back to the main landing pages.
