1. Content Removal – “Shape the Next Generation of Entrepreneurs”

In the **“Shape the Next Generation of Entrepreneurs”** section:

- **Remove** the subsection or card labeled **“Emerge Livelihoods — Mentor Network”** entirely from the page.

This streamlines the content to focus on core program offerings and reduces visual clutter.

2. Styling – “The Mentor Lifecycle” Section

In the **“The Mentor Lifecycle”** section, apply the following color scheme to the step cards (from **Step 01: Apply** through **Step 09: Recognition and Alumni Network**):

- **Card Background (rectangle boxes containing step content):** `#4C808A`
- **Step Number Labels (e.g., “Step 01”, “Step 02”, … “Step 09”):** `#3B4167`
- **Step Title Text (e.g., “Apply”, “Profile Review”, … “Approval”):** `#FFFFFF` (white)

3. Styling – Vertical Divider Line in “The Mentor Lifecycle”

For the vertical divider line element defined by the following HTML:

```
<div class="hidden lg:block absolute left-1/2 top-0 bottom-0 w-px bg-white/10 -translate-x-1/2" …></div>
```

Apply the following styling updates:

- **Width:** Set to **2px** (replace `w-px` with a custom class or inline style enforcing `width: 2px`).
- **Background Color:** Set to **`#FFFFFF`** (white) — replace `bg-white/10` with a solid white background.

This ensures the central timeline divider is clearly visible and consistent with the section’s refined visual design.

4. Content Removal – “Where You Fit In” Section

In the relevant section of the page (likely under **“The Mentor Lifecycle”** or a related mentor-focused area):

- **Remove entirely** the following content block: **Heading:**
  “Where You Fit In” **Subheading/Label:**

“Incubation and Acceleration Programs” **Description:**
“See the active programs where your mentorship is needed most.”

This removal streamlines the mentor journey content and reduces redundancy.

5. Styling – Expertise Area Badges

Update the background color of the following expertise/skill area badges to **`#4C808A`**:

- Business Strategy Leadership
- FinTech Digital Transformation
- Education Research
- Green Innovation
- Marketing and Sales

This ensures visual consistency with the platform’s primary action and accent color scheme.

6. Content Removal – “Resources” Section

Comment out (hide/disable) the following section entirely from the page:

Heading:
“Resources”

Subheading:
“Mentor Resources”

Description:
“Summaries available now. Full access unlocked after approval and login.”

This section should be removed from the public-facing view while retaining the code (commented out) for potential future reactivation.

7. Styling – “Mentor Login” Button

For the **“Mentor Login”** button:

- **Text Color:** Set to **`#FFFFFF`** (white)
- **Border Color:** Set to **`#FFFFFF`** (white)

This ensures the button maintains visual consistency with the platform’s established styling for primary action buttons.

8. CTA Section – “Shape the Next Generation of Entrepreneurs”

In the **“Shape the Next Generation of Entrepreneurs”** section:

- **Remove** the **“Register as a Mentor”** button entirely.
- **Remove** the **“Login”** button as well.

The accompanying text — *“Join a network of experienced entrepreneurs, industry experts, executives, researchers and investors dedicated to helping startups grow from ideas to investment-ready businesses.”* — should remain unchanged.

This simplifies the call-to-action and reduces friction for users exploring the mentor program.

9. Styling – Stats Section Text Labels

In the stats section displaying:

- **520+ Expert Mentors**
- **4.9★ Avg Rating**
- **18K+ Sessions**

Update the styling as follows:

- **All text labels** (e.g., “Expert Mentors”, “Avg Rating”, “Sessions”) should be set to **`#FFFFFF`** (white).

This ensures high contrast and visual consistency with the section’s overall design.
